

SARTHAK SABHARWAL

Senior Business Analyst · AI Governance & Delivery | sarthakmsabharwal@gmail.com | +61 414 055 123 | Melbourne, Australia | linkedin.com/in/sarthakmsabharwal

PROFILE

Senior Business Analyst with a decade of enterprise delivery across banking, finance, and technology consulting in India and Australia. Currently leading AI governance for a live enterprise pilot at Colonial First State, and founder of Nambik AI, an independent AI consultancy. Certified Scrum Product Owner (CSPO).

EXPERIENCE

Senior Specialist - Business Analyst — LTM (formerly LTIMindtree) / Colonial First State May 2022 – Present

- Led business analysis for CFS Edge Adviser AI – Phase 1, a controlled AI pilot scoped to select licensees and practices, governing AI prompt scope and compliance guardrails across Product, Risk, Compliance, Change, and FNZ; Phase 1 complete and now expanding to the full CFS Edge adviser base.
- Sole Business Analyst for "Small Changes," a continuous-improvement initiative capturing overlooked pain points from advisers, operations, and product teams, delivered via quick dot releases outside the standard quarterly release cycle.
- Led business analysis across the full CFS Edge platform lifecycle: First Wrap legacy product support, data migration to CFS Edge, day-one feature testing, and ongoing platform BA work.
- Delivers regular feature work across CFS Edge's quarterly release cycle (four major releases per year).

Business Analyst / Business System Analyst — ANZ Banking Group Aug 2020 – Mar 2022

- Facilitated Agile ceremonies and managed sprint backlog for the Product Owner; led solution design on the AEM platform, enhancing the digital sales experience for anz.com.au.
- Reviewed and standardised roughly 800 policies and schedules against ANZ's governance framework during a focused Policy Governance engagement.
- Contributed to the migration of on-premise customer footprint features to Google Cloud Platform (GCP).

Business Analyst — Comprara Pty Ltd (procurement consulting) Mar 2020 – Jun 2020

- Wireframed and prototyped a new business website; conducted process mapping to analyse and simplify business scenarios.

Sessional Teaching Associate — Monash University Mar 2019 – Jul 2019

- Taught Website Fundamentals (SQL, HTML5, JavaScript, jQuery, PHP) to undergraduate cohorts of 15–20 students; graded assessments and provided one-on-one consultations.

Business & Integration Architecture Senior Analyst — Accenture, India Aug 2013 – Jun 2017

- Progressed from Associate Software Engineer to Senior Analyst; led independent delivery for major clients including Trident Group (textiles & paper manufacturing), Jindal Stainless, and Dabur India Ltd / H&B Stores Ltd (FMCG & beauty retail), including a large-scale GST integration project.
- Collaborated across teams ranging from 5 to over 100 members as point of contact between stakeholders and developers; ran boot camp training and mentored new team members.
- Awarded "Numero Uno" for best performance, 2016.

INDEPENDENT PROJECTS

- Nambik AI — Founder. Independent AI consultancy; first engagement delivered a live production inbound voice agent for a print industry client (Retell AI, ElevenLabs, n8n).
- AI Digital Mentor — Independent designer/builder. RAG-powered learning application on the Anthropic API (ai-digital-mentor.onrender.com).

EDUCATION

Master of Business Information Systems — Monash University (Jul 2017 – Jul 2019). Two industry projects: an IoT smart device addressing Victorian water scarcity (high distinction); a data analysis project on declining Victorian reservoir levels (high distinction, led to a Research Assistant role offer). Mentoring roles: IT Peer Mentor; Postgraduate Association Mentor.

Professional Year Program — Monash College (2020 – 2021).

Bachelor of Technology, Electronics & Communications Engineering — Jaypee Institute of Information Technology, India (Aug 2009 – Jul 2013).

CERTIFICATIONS & CONTINUED LEARNING

Certified Scrum Product Owner (CSPO)

Outskill AI Accelerator — 14-day intensive programme culminating in a hackathon

Outskill AI Catalyst Program — 6-month practitioner programme in progress (RAG systems, AI agent architecture, MCP integration, voice agents, context engineering)
